

2016 PERFORMANCE AWARDS AND RECOGNITION (PAR)

Beginning with 2014, PAR has become the new model member units follow when planning, funding, and executing actions designed to drive higher levels of member value. This evolves from a renewed focus on member retention and growth, member value creation, and member leader engagement.

The program is intended to be simple, achievable, and inspiring while also providing opportunities to capture, share, and be recognized for innovative initiatives.

Please join us in congratulating the sections and divisions awarded this honor.
